## I. Overview.

With Banner Manager plug-in of Magento marketplace extension vendor is allowed to manage images banner on their website. He will be able to add images and put them to any position of his page. The Banner Manager plug-in supports for add image slider too.

## II. Manage Banners

From Vendor Cpanel go to menu CMS-> Banner Manager -> Banners

The screenshot shows the VnEcoms Banner Manager interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Credit', 'CMS', 'Advanced Faq', 'Live chat', 'Sub Accounts', and 'Reports'. The 'CMS' menu is expanded, showing 'Pages', 'Static Blocks', 'Banner Manager', and 'Frontend Apps'. The 'Banner Manager' sub-menu is open, showing 'Banners' and 'Items'. The main content area is titled 'Banner Manager' and features an 'Add Banner' button. Below the title, there are pagination controls: 'Page 1 of 1 pages | View 20 per page | Total 1 records found'. There are also 'Export to: CSV', 'Export', 'Reset Filter', and 'Search' buttons. A table with the following data is displayed:

Identifier	Title	Status	Action
home_banner	Home Banner	Enabled	Edit

Click **Add Banner** to add new banner.

The screenshot shows the 'Edit Banner' interface for a banner named 'Home Banner'. On the left is a sidebar with a 'Banner Information' menu containing 'Banner Information', 'Configuration', 'Banner Items', and 'Implement Code'. The main content area has a title 'Edit Banner 'Home Banner'' and a toolbar with buttons: 'Back', 'Reset', 'Delete Banner', 'Save Banner', 'Save And Continue Edit', and 'Add Banner Item'. Below the toolbar is a form titled 'Banner information' with the following fields: 'Identifier \*' (text input with value 'home\_banner'), 'Title \*' (text input with value 'Home Banner'), 'Status' (dropdown menu with value 'Enabled'), and 'Description' (empty text area).

**Identifier:** This field is used to identify the banner.

**Title:** The title of banner.

**Status:** Enabled/Disabled

**Description:** Some text to describe about the banner.

The screenshot shows the 'Edit Banner' interface for a banner named 'Home Banner', specifically the 'Configuration information' section. The sidebar and toolbar are identical to the previous screenshot. The 'Configuration information' form contains the following fields: 'Type \*' (dropdown menu with value 'Nivo slider with captions links'), 'Effect \*' (dropdown menu with value 'Box Random'), 'Display Description' (dropdown menu with value 'No'), 'Width \*' (text input with value '698'), 'Height \*' (text input with value '300'), and 'Delay(ms) \*' (text input with value '4000').

**Type:** Banner type, the extension supports many banner type.

**Effect:** Effect of banner.

**Display Description:** You can use this option to display description of banner on frontend.

**Width:** Width of the banner.

**Height:** Height of the banner

**Delay(ms):** This option is used for banner slider that is the time for banner slides to next image.
