- **New Product Approval:** If this option is set to Yes when vendor select and sell a product it will need to be approved by admin before it will be showing in the price comparison table.
- **Product Update Approval:** If this option is set to Yes, when vendor update price/qty of the product, it will need to be approved by admin to be showing in the price comparison table.
- **Number of Showing Products:** If there are much number of vendor selling same product, it will show only this number of vendor in the list. Customer will need to click to a button to show all products.

### III. Vendor Manage Assigned Products

From vendor dashboard go to menu **Catalog** -> **Assigned Products** here vendor will see the list of assigned products.

The screenshot shows the VnEcoms Vendor Panel interface. At the top, there is a navigation bar with links for Home Page, My Account, Configuration, and Logout. Below this is a secondary navigation bar with Dashboard, Sales, and Catalog. The main content area is titled "Manage Assigned Products" and includes a "Select And Sell" button. The interface displays a table of assigned products with columns for Thumbnail, Name, Price, Qty, Status, Preview, and Action. The table contains two rows: "16GB Memory Card" and "Bath Minerals and Salt".

Thumbnail	Name	Price	Qty	Status	Preview	Action
	16GB Memory Card	\$25.00	10	Unapproved	Preview	Edit
	Bath Minerals and Salt	\$20.00	10	Approved	Preview	Edit

Vendor can click to **Select And Sell** to sell an exist product. On Select And Sell page vendor will be able to search for product to sell. The search result will be shown like screen shot below. Vendor will just need to click to **Sell This Product** button to continue.

Vendor will not be able to select and sell a product that is selling by himself already.
