I. Overview.

Select And Sell is a plug-in of magento multiple vendors extension. It allows vendor to create products very quickly by copy & modify data from exist products.

II. Configuration

From admin cpanel go to menu Vendors -> Configuration. Click to "Select And Sell" to explain the field set.

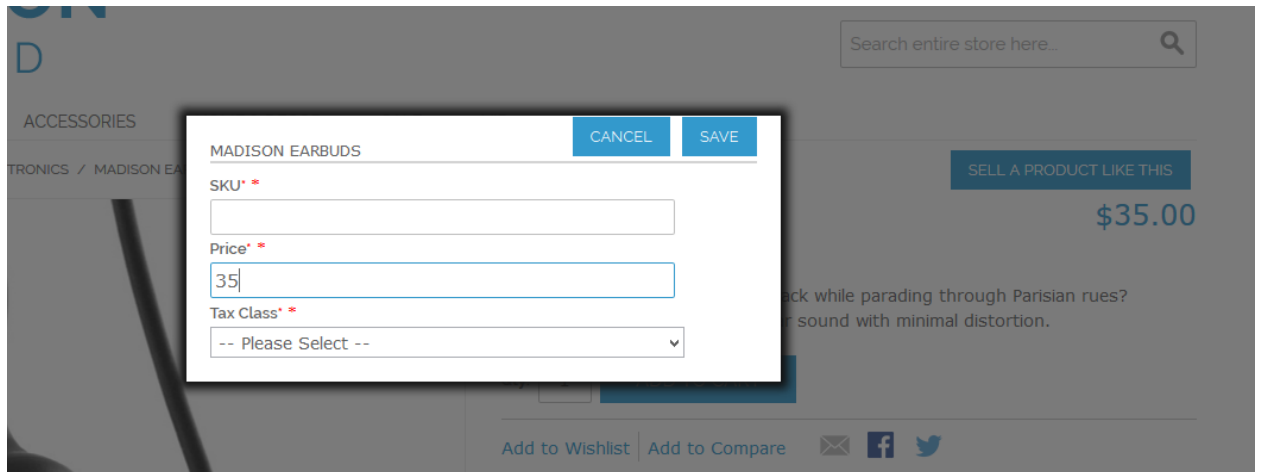

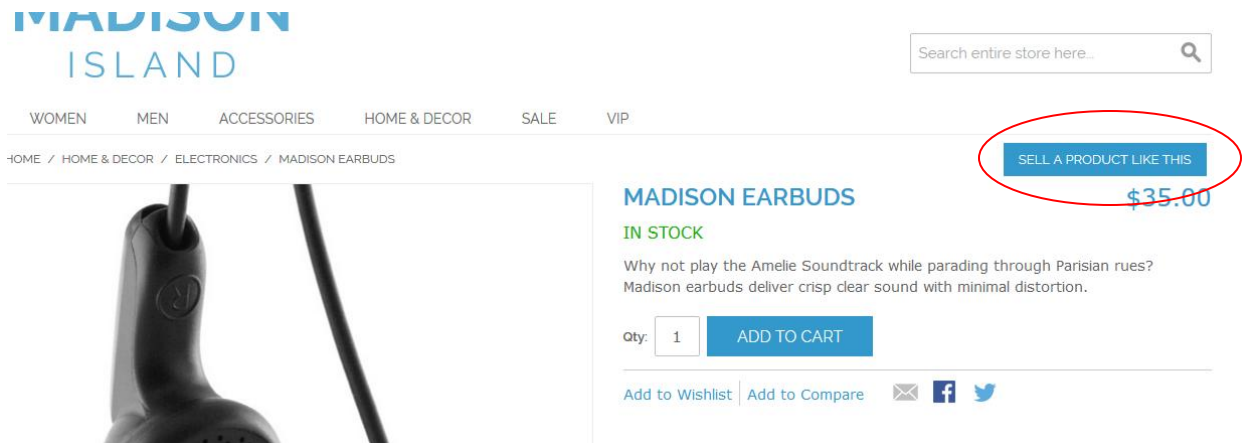

Select and Sell	
Enabled Select and Sell on Frontend	Yes <input type="button" value="[STORE VIEW]"/>

Here you can enable/disable the feature that allow vendor to select and sell the product from frontend. See Section III for more info.

III. Vendor Select And Sell From Frontend.

Vendor will search the product from frontend and while viewing the product there will be a button called "Sell Product Like This". Vendor will need to be logged in to vendor account to use this feature.

IV. Vendor Select And Sell from vendor cpanel.

From vendor cpanel go to menu Catalog -> Manage Products. Click to the Select And Sell Button.

Manage Products Select And Sell Add Product
